

# **Municipal Solid Waste Incineration (MSWI) residues as secondary resources for metal recovery and construction materials**

PI Prof. Mirja Illikainen

# Research team

Fibre and Particle Engineering  
Research Unit (FPERU)

**PI: Prof. Mirja  
Illikainen**

**Dr. Priya Perumal**  
Docent (sustainable  
construction materials)

Chemical and Process Engineering  
Research Unit (CPERU)

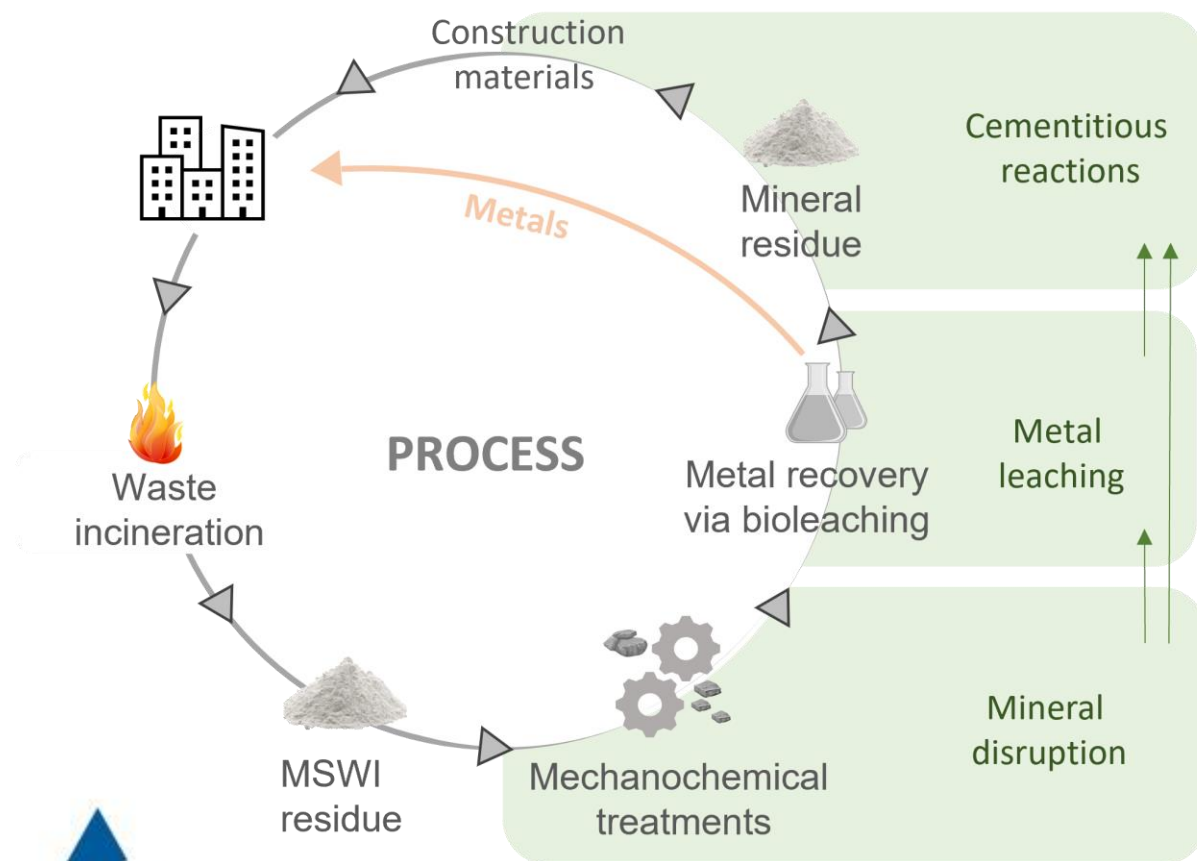

**Dr. Juha Ahola**  
University Lecturer

**Dr. Johanna  
Panula-Perälä**  
Postdoctoral  
Researcher

# Research idea and impact

## Research areas:

- Flows of critical materials in circular economy
- MSWI ash characterization and pretreatment
- Recovery of metals via bioleaching
- Cementitious reactions

## Impact:

- High technology products and services
- Cementitious binders from residual ashes
- Carbon capturing potential of MSWI residues
