

Science has societal impact in a variety of ways

DIVERSE AND VERSATILE IMPACT OF RESEARCH

On science and beyond science,
on individuals, the environment,
businesses, administration and society

May emerge tomorrow,
next year, in five years
or after 25 years

Manifested regionally,
nationally
and globally

Impact is manifested in all roles of science.

KEY ROUTES OF IMPACT

Impact through
research results:
transfer of results

Impact through
cooperation:
exchange of ideas

Impact through
talented people:
mobility of people

EXCELLENT RESEARCH IS ALSO ESSENTIAL FOR A NATION'S ABILITY TO UTILISE RESEARCH
CARRIED OUT ELSEWHERE AND TO MAINTAIN HIGH-QUALITY EDUCATION.
