### Legal basis and purpose of personal data processing
The Academy of Finland is a central government authority in the Ministry of Education, Science and Culture’s administrative branch, whose statutory duty is to promote scientific research and research framework conditions as well as their utilisation by funding them and by participating in international cooperation, to act as an expert in the development and implementation of science policy, and to carry out other tasks assigned to it (Act on the Academy of Finland 922/2009). Processing of personal data is therefore necessary for the authority to comply with this statutory obligation.

Xpert Search is a service for journalists. In the service, journalists can search for experts and researchers in various fields. Communications officers and Academy of Finland staff seek out suitable experts and researchers and convey their contact details to journalists.

The data will not be used for other purposes.

### Description of data subject groups and personal data groups
The data subjects are the communications officers, journalists, Academy administrators, as well as researchers and experts whose contact details have been provided to the service.

The personal data contained in the filing system are name, phone number, profession, workplace and email.

### Groups of personal data recipients to whom personal data are disclosed.
Authorised employees of the service provider, the Academy of Finland, have access to the system for maintenance purposes.

The data may only be disclosed within the limits imposed by current legislation. Public access to government documents and information is governed by the Act on the Openness of Government Activities (621/1999). Public documents are disclosed upon request, in accordance with section 13 and section 16 of the Act. A public document may also
contain confidential information or data whose disclosure is limited (usually personal data).

Confidential information will be given access to and disclosed only with the consent of the person concerned, to the person concerned, or by virtue of a legal right.

Researchers’ contact details will be disclosed to the journalist searching for an expert according to the purpose of the service.

| Data subject rights | Right of access to personal data

The data subject has the right to obtain from the controller confirmation of whether personal data relating to them are being processed and, if these personal data are processed, the right of access to personal data. The controller must provide a copy of the personal data processed. Requests should be submitted to the controller’s contact person.

If less than one year has elapsed since the right of access of the data subject was used, the controller will charge a fee based on the administrative costs of providing the data.

Right to rectification of data

The data subject has the right to demand that the controller rectify, without undue delay, any inaccurate and incorrect personal data of the data subject. The request should be submitted to the controller's contact person.

Right to restrict processing

The data subject has the right to obtain a restriction of processing from the controller, for example, in situations where the data subject contests the accuracy of the personal data or the personal data has been processed unlawfully. Restriction of personal data processing means that the data may, with the exception of storage, only be processed with the data subject’s consent, for the protection of the rights of a natural or legal person, or for reasons of important public interest of the Union or of a Member State.

Right to appeal to a supervisory authority

Every data subject has the right to file a complaint with the supervisory authority, in particular in the Member State in which they have their usual residence or workplace or where the alleged infringement has occurred if
the data subject deems the processing of personal data relating to them to infringe data protection legislation. This right is without prejudice to other administrative appeal or legal remedies.

In Finland, the national supervisory authority is the Data Protection Ombudsman, tel. +358 295 616 670 or tietosuoja@om.fi.
