

WHITE

Keeping the Arctic White: Regulatory Options for Reducing Short-Lived Climate Pollutants in the Arctic

WHITE
combines law,
atmospheric
physics and
environmental
science

How to strengthen
the regulatory
framework for
reducing emissions
of SLCPs in the
Arctic?

Reducing SLCP
emissions in the
Arctic would
have local and
global benefits

WHITE produces a
comprehensive analysis
of various regulatory
options for reducing
SLCP emissions and
climate impacts in the
Arctic region
