## Keeping the Arctic White: Regulatory Options for Reducing Short-Lived Climate Pollutants in the Arctic

WHITE  
combines law,  
atmospheric  
physics and  
environmental  
science

How to strengthen  
the regulatory  
framework for  
reducing emissions  
of SLCPs in the  
Arctic?

Reducing SLCP  
emissions in the  
Arctic would  
have local and  
global benefits

WHITE produces a  
comprehensive analysis  
of various regulatory  
options for reducing  
SLCP emissions and  
climate impacts in the  
Arctic region
